

THE NATION OF ISLAM MINISTRY OF AGRICULTURE

NATIONAL STAPLE GOODS PURCHASE PROJECT

Cycle #19

NOI Ministry of Agriculture Coordinators **WELCOME!**

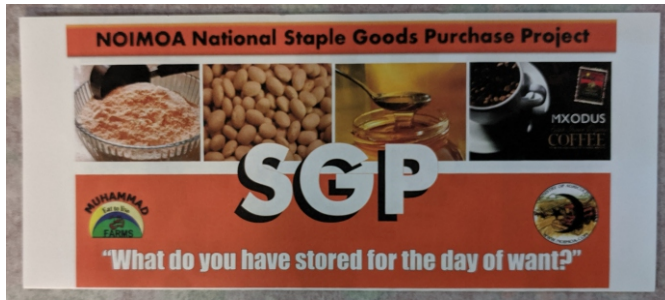

Thank you for your commitment to work and ensure that You, your Families, Friends and Communities are preparing your homes, and for the continued support of the economic growth and development of your National Staple Goods Project.

THE NATION OF ISLAM MINISTRY OF AGRICULTURE

It is important for us as Coordinators to know as much as we can about the Staple Goods Project, in our efforts to serve our communities, address their questions regarding the project, and continue to increase our productivity. The information following is taken from your Tri-fold brochure, which is a good handout when soliciting new participants. Prints on 8.5" x 11.0" paper and is double-sided. Once folded, there is room to put your contact information. (1" x 2 and 5/8" address label can be used.)

What is the National Staple Goods Purchase Project?

The Most Honorable Elijah Muhammad asked us, "What do you have stored in your houses for the day of want?" The Honorable Minister Louis Farrakhan has warned us to prepare for forthcoming weather disasters. To this end, we in the Nation of Islam Ministry of Agriculture (NOIMOA), organized our efforts and in 2011 began the cooperative purchase and distribution of staple goods. Adopting the "Cooperative Corporation" philosophy, each local Ministry of Agriculture Staple Goods Coordinator works to service their respective area encouraging us to pool our resources together as Individuals, Families, Communities, Organizations, Churches, Study Groups, Mosques, Cities, States and a Nation.

Some of the goals for this type of cooperative economic system includes: 1. Participants are learning the process of bulk purchasing and cross country distribution, 2. They are learning the inner workings of national production, manufacturing and distribution systems, 3. They are learning and practicing principles of cooperative economics, 4. Collective decision making, 5. Group investing and operational unity.

How Does The Staple Goods Project (SGP) Work?

The National Staple Goods Purchase Project currently takes place bi-annually with 70+ cities currently participating throughout the U.S.

Cities are represented by Staple Goods City Coordinators. All participants from Massachusetts to Florida to California pay the same price for the products, which includes shipping costs to their respective cities. For a city to participate, they must have a minimum total order of 500 lbs. Orders are collected by the City Coordinator who keeps each participant abreast of the process; when to collect funds, and the coordination of delivering products when they arrive.

The continued growth and development of the Staple Goods Project will lead to the establishing of our cooperative corporation. A cooperative is a business owned and controlled by the people who use its services. They collectively finance and operate the business or service for their mutual benefit. By pooling their resources and working together, they can reach an objective that would not be attainable if acting alone.

Objectives

The Most Honorable Elijah Muhammad asked us, "What do you have stored in your houses for the day of want?" The Honorable Minister Louis Farrakhan has warned us to prepare for forthcoming weather disasters. To this end, we (NOIMOA) have organized the cooperative purchase and distribution of staple goods to each local Ministry of Agriculture to service their respective area.

The continued growth and development of the Staple Goods Project will lead to the establishing of our cooperative corporation. A cooperative is a business owned and controlled by the people who use its services. They collectively finance and operate the business or service for their mutual benefit. **By pooling their resources and working together, they can reach an objective that would not be attainable if acting alone.**

Profits from each staple goods cycle will be available at the end of the cycle for participating members to:

1. Re-invest into the Co-op
2. Donate to the 3 Year Economic Program
3. Receive a patronage refund

We will continue to build on this activity to further solidify our foundation to build a conglomerate of cooperative corporations, national production, distribution, and cooperative communities. This is a crucial platform in building our infrastructure within the Nation of Islam to establish sustainable local consumer markets, interstate commerce, and international trade. We have the will, talent, technology, and capacity to re-build and expand on the NOI's pinnacle of success reached in 1975. **IT'S NATION TIME!**

As The Staple Goods Project enters its 10th year of operation, we thank The Honorable Minister Louis Farrakhan for his desire to make this a bigger and permanent program throughout our Nation.

Please review the attached information that allows participants to place an order; explains the ordering process including operation time lines; supplies detailed product information and helps us gain support in our efforts to encourage participation from our broader communities.

Thank you in advance for your support in this project. If you see where our efforts can be improved, please do not hesitate to let me know as we are working for the benefit of one another. Thank you for your willingness to participate by preparing your homes and encouraging others to do so as well, for as we can see, the Time is surely upon us!

Respectfully,

NOIMOA National Staple Goods Purchase Project

Dear Family,

As you are aware, the weather is becoming more catastrophic and it will put your mind at ease to know you are prepared with staple goods on hand. We are currently in our 10th year of ordering and distributing vital food commodities to cities across America. We would like for you to be a part of our community to have the opportunity to order with us.

The items all come in large quantities, therefore, we encourage you to pool your resources so that you have as many of these staple products on hand as possible.

You can learn more about the Staple Goods Project by going to our website, NOIMOA.org and by calling in on our Tuesday night conference calls, 8:00 PM EST at 605-313-5106 pin 178963#.

Not only do we offer these products but advise you on proper long term storage of your items.

Don't be left in the cold. **Join us in ordering.**
